

**KEY LARGO, FLORIDA
OCEAN REEF CLUB
DECEMBER 7 – 11 & 11 – 15, 2009**

Key Largo, the northernmost island of the Florida Keys island chain, lies only an hour's drive from South Florida's two major airports. Yet it is a world away! As you look at the tropical hardwoods, the winding creeks, and the stunning coral

formations, it is no wonder US Airconditioning chose this destination for its December 2009 program. Famous film scenes from the movies "PT 109" and "Key Largo" were filmed here in the beauty of Key Largo. Key Largo is sandwiched between the watery wilderness of the Everglades National Park to the west and the fish-covered coral formations of North America's only living coral barrier reef to the east. This island chain boasts natural wonders plus friendly locals who are ready to help you enjoy them.

Guests of US Airconditioning will enjoy unparalleled comfort and luxury with spectacular sea views at the five star Ocean Reef Club Resort. On the north tip of Key Largo lies this secluded oasis of the Ocean Reef Club. Located just 55 minutes south of Miami International Airport, the Ocean Reef Club is an exclusive, 2,000-acre resort destination. The resort has over 200 spacious guest rooms featuring high-speed Internet access, mini-bar,
